

Reynard

2% Chlorhexidine Wash Cloths

2% Chlorhexidine Wash Cloths

Reynard Chlorhexidine Wash Cloths are specifically designed for pre-admission patient washing and for in-patient use prior to clinical procedures.

Reynard brand Chlorhexidine Wash Cloths provide a simple, rinse free, antiseptic body cleansing solution.

Directions: Shower as normal. Microwave (800W) for up to 1 minute or use un-heated, checking the cloth for temperature. Use each wipe on different areas of the body so as to avoid cross contamination.

Dispose of used wipes properly; do not flush.

Convenience

All in one product. Designed to clean, disinfect and moisturise the body in one easy step.

Fast and effective

Presented in a resealable pack to prevent drying out. They are a convenient, rinse free wipe that can be used anywhere.

Cost-effective

Super large cloth size (33 x 23cm) means the whole body can be cleansed with one pack.

Ideal for use in:

- Hospitals—Theatre
- Aged Care
- Private Hospitals

Technical:

2% Chlorhexidine digluconate rapidly kills all harmful bacteria that can be found on patients skin and also provides long lasting residual protection with binding properties, ensuring an extra antibacterial barrier for hospital patients.

Product specifications and availability may vary according to country. Always read the label and product information before use.

Supporting documentation: Full technical specifications are available upon request.
Bespoke solutions: Should your market require more or fewer wipes, lightly scented alternatives or even biodegradable wipes, for example. Let us know. We are more than happy to develop bespoke solutions.

2% Chlorhexidine Wash Cloths
